Rotary Celebration Now In Full Swing

MINIATURE TOWN GOVERNMENT CHOSEN

The first week at Wildwood School Playground closed with the formation of a miniature Town Government.

The young people were inspired on Wednesday by Chairman Wavie Drew of the Board of Selectmen when she outlined the necessary offices and duties required to organize their self-governing program.

The playground enthusiasts wrote their own laws, elected their own selectmen who appointed all other officers. A court has been set up to judge any infraction of their rules.

John Collins heads the Board of Selectmen which consists of Peter Collins, Edward Latta, Jimmy Collins

and Dawn Burns. The following are the officials: Police Chief, Mike Farrell; Police officers, Ricky White, Billy Burns, Bruce White, Stephen Hughes, Danny Collins; Fire Chief, Larry Whitney, Craig White, Lorraine Desler; Sanitarians, Carleton Deane, John Zakowsky, Frank Ingram; Water Department Commissioners, Judy McGuinnis, Stephen Whitney and Ann Collins.

Peaceful and relaxed play, good care of equipment and cleanliness are assured by all departments.

Mrs. Kenneth Wilson, director has been competently assisted by volunteer leaders, Miss Ann Cavanaugh and Miss Ruth Sussenberger.

Restrictions Set On Liquor Sales For July 4th

The Alcohol Beverages Control Commission yesterday released regulations provided by the Liquor Control Act pertaining to the sale of alcoholic beverages on July 4.

According to the Act hotels, restaurants, taverns and clubs may sell alcoholic beverages at the usual hours. "Package Goods" stores shall not sell or deliver alcoholic beverages before 1 p.m., but may sell and deliver until 11:30 p.m. tonight (the eve of the fourth).

Manufacturers, wholesalers, and importers shall make no deliveries or sales at anytime during the day. Registered pharmacist shall not sell alcoholic beverages without a prescription from a physician.

Cemetery Baskets Stolen

On Tuesday, June 26, Sergeant Imbimbo of the police dept. investigated a complaint made by Ernest Eames. Mr. Eames is Superintendent of the Cemetery Dept. and has stated that many plants, flowers and baskets have been spirited from the graves.

It does seem that if these thieves feel it necessary to steal plants and flowers, they could find some live victims, capable of defending themselves. Is there anything lower than a person who will steal from the dead.

Accident On Woburn St.

Officer Harvey investigated an accident at 7:30 a.m. on Sunday, July 1. The accident occurred on Woburn St., in the vicinity of Jinks.

Alfred E. Sloss of 3 Carson Ave., North Wilmington was driving north on Woburn St., when his vehicle went out of control and struck a tree.

Mr. Sloss suffered the loss of several teeth, head and chest injuries and possible internal injuries. He was taken to Choate Memorial Hospital in Woburn. His car was towed to Giddart's Garage.

Stolen Bike Reported

On Friday, June 29 Chester Drake of Hobson Ave., reported to Officer Shephard that his 24" Columbia bike had been stolen from the town beach at Silver Lake. Complete description of the bike was given and police are still investigating.

Break And Entry At Real Estate Office

At 9:55 a.m. on Friday, June 29, it was reported to police that the Real Estate office of Marion Murphy on lower Main St. had been broken into and ransacked. Thieves entered between 8:30 p.m. on the 28 and 9:55 on the 29th.

A broken window in the north side of the building was believed to have been the point of entry although there was evidence of a try being made to enter the front. Blood stains were found about the room and a stone, believed to have been used to break the window was found on the floor near a desk. The window sill and the stone also bore blood stains.

Sergeant Basil Cooney of the state police was called in to investigate the entry and a flashlight left behind by the culprits is being used by him in his search for the offenders. Finger prints have been taken from the flashlight and several articles of furniture which were damaged.

No definite amount has been formulated regarding the extent of damage. Sergeant Imbimbo and Officer Cuoco assisted Sergeant Cooney.

Jimmi Fund: Watch this paper for the Starting soon. 1956 Jimmi Fund Drive From The Boston Globe:

It's too bad humans don't have the ability to be as grateful as beautifully as a well-sprinkled lawn.

Notre Dame Player New Coach

Frederick H. Bellissimo of Watertown, has been assigned to the physical education staff in the high school where he will assume the duties of the physical education instructor for the boys and will be head coach of football. He will also assist Mr. Mullarky with the basketball squad.

Mr. Bellissimo is a graduate of the University of Notre Dame and has completed two years as athletic director for the Waltham Boy's Club. While at Notre Dame he received varsity letters in football and baseball and was active in interhall competition, wrestling, basketball being nominated to the all-star team in basketball. In addition to his college experience as a player he was a three letter man at Belmont High School where he starred in football, basketball and baseball. While at Notre Dame Mr. Bellissimo served as coach of the Freshman Baseball team and is now a rated Eastern Massachusetts Baseball and Football Official. His football background while at Notre Dame included such coaches as Frank Leahy, Johnny Lujack and Terry Brennan.

Wilmington Girl Dies In Boston

Priscilla Park, 14, daughter of Mr. and Mrs. Philip Park, Ballardvale St., died Monday at the Children's Hospital in Boston after a long illness. No further details were available at press time.

ALL ROADS LEAD TO WILMINGTON DURING WEEK OF JULY 4

Rotarians have planned a gala week long celebration, commemorating Independence Day. Events have promised to be even greater than last year's and it is open to all of you who wish a good time. This year it will not be necessary to travel miles to see a "fourth of July" parade. We can stay right here in our own town and witness the giant parade which will take place on Wednesday beginning at 1:00 p.m.

All week long there will be something doing at Rotary Park on Church St., with the carnival opening on Monday evening. Prizes will be awarded every night and the various parades and contests should be of interest to everyone.

On the night before the fourth a spectacular display of fireworks may be enjoyed by one and all. All you have to do is be here.

The last and perhaps the most pleasing of all these exciting events, will be the choosing of Miss Wilmington on Saturday evening, July 7. Who this lovely lass will be is at the moment anybody's guess. Let's all be on hand to find out.

During the afternoon on Saturday, there will be a special "kiddies" matinee during which the prices will be reduced to pint size.

To quote the Rotarians themselves: "come and spend a week of fun with us in Wilmington".

Assault & Battery Case Tried In Cambridge Court

Sometime last winter, Frank Hington of Carter Lane and William Kulka, also of Carter Lane were involved in a cross-complaint of assault and battery. In Woburn Court, the pair was found equally guilty and each was fined \$50.00.

On Wednesday, June 27, the case having been appealed was again tried, this time in Cambridge Superior Court. William Kulka was found not guilty and Frank Hington was found guilty. Mr. Hington was fined \$100.00. Chief Lynch handled Wilmington's part of the case.

Accident On Main St.

At approximately 5:30 p.m. on June 29 two cars traveling north on Main St., were involved in an accident near the railroad crossing, just out of the square. A vehicle driven by Paul Coyne of Vernon St., Tewksbury was struck in the rear by one driven by Francis Dow of Oliver St., Tewksbury.

Slight damage was done to the vehicles and a minor back injury was claimed by Mr. Coyne.

Deputy Hoban investigated the accident.

Class Ring Found At Town Beach

A class ring bearing the initials R.E. was turned in at the police station to Officer Kelley by Cathleen Pushee of Washington Ave. Miss Pushee found the ring at Silver Lake while swimming. Officer Kelley contacted the high school and in turn notified the owner of the ring, Rose Marie Enos, that she could have same, by calling at the station and identifying it.

Windshield Hit With B B Shots

At 9:45 a.m. on Saturday Clinton Smith of Harold Ave., Woburn complained to Officer Mercier that his windshield had been struck with BB shots.

The incident occurred in the vicinity of Mr. Apps on Main St.

CONGREGATIONAL NEWS
Morning worship each Sunday at 9:30. The minister will be absent on vacation during the last four Sundays of July, and Mr. Wallace Reid of Melrose will be in charge of these services.

D.A.V. SERVICE OFFICER

The D.A.V. Service Officer, James Sayer, assisted by Bill Smith, will be at headquarters on Grove Ave. on Monday, July 9, to assist veterans, their widows or dependents, with any problems they may have.

D.A.V. Meeting Postponed

Due to the holiday, the D.A.V. meeting, regularly scheduled for Wednesday, July 4, will be held July 11 at 8:00 p.m. at headquarters.

The delegates to the State Convention, to be held at Worcester in July, will be elected.

Mrs. Pauli Pire Fractures Hip

Mrs. Pauli Pike, who lives on Lowell Street recently fractured her hip at her home. She is now convalescing at St. John's Hospital in Lowell.

FIRE CHIEF ATTENDS CONVENTION

Fire Chief Arthur Boudreau returned to his duties on Monday after having attended the week long 34th annual convention of New England Fire Chiefs at Wentworth-by-the-Sea in Portsmouth.

**GROUP BANDS TO AID
HARD OF HEARING
CHILDREN**

Last evening the first meeting of the new Regional Chapter of The Massachusetts Parents' Association for the Deaf and Hard of Hearing was held at the home of Mr. and Mrs. Anthony Kyricos of Gray St., Billerica. Interim officers elected were president, Mrs. Marie Kryikos; Vice president, Mrs. Dorothy Manson; secretary, John Manson; treasurer, Anthony Dango. Everyone there was present for the commendable purpose of getting help for those children in public schools who are hard of hearing or have speech difficulty, the result of faulty hearing. Interesting to note is that this group was formed through sheer determination, chance meetings and contact from one person to another. According to statistics in a town of 3300 children the per-

centage of hard of hearing is around 250. At the present time there is no trained teacher for these children who need education to lead normal fruitful lives. Remedial reading classes do not help in these cases.

Plans will be eventually developed to include speech classes for pre-schoolers. There is the case of one little girl not quite two who lost 90% of her hearing at six months due to an illness. She has been attending speech classes in Lowell and it is amazing to hear this tot, who otherwise would be mute, learning to talk like others her age. What is to become of this child and others like her if she goes to primary school and is retarded because of lack of a proper teacher? At the very formation of this Chapter, Mrs. Murray of the Nursery Ryme Nursery School on Boston Rd. has freely offered the use of her school every afternoon whenever the pre-school program is ready to start.

There has been a tremendous need for a State-wide organization which will be beneficial to the Deaf and Hard of Hearing. This new group here in Billerica is having a membership drive for all those who wish to join; anyone interested may join this worthy cause. (You may call Mrs. Kyricos at MO 3-4129 or Mrs. Manson at MO 3-2087 for further information.) The association shall be a non-profit non-sectarian non-political interracial organization and shall have the following objectives to benefit the deaf and hard of hearing, the parents, and those concerned with the problem:

1. To educate the public and the association members to the problem.
2. To provide informational services.
3. To assist in rehabilitation and job procurement.
4. To promote an enlarged program for teacher training.
5. To assist in bettering school facilities.

6. To promote the attainment of advanced education.
7. To give every possible assistance where deemed necessary.

**ANTHONY TESSICINI
VISITED HERE**

Mr. and Mrs. Anthony Tessicini of San Francisco and their two children, Loretto and Cesidea were guests in the home of Mr. Tessicini's parents, Mr. and Mrs. Loretto Tessicini of Burlington. They arrived in Wilmington on June 22 and left June 27 for New York where they plan to take up residence.

Anthony left Wilmington to enter the Army approximately 10 years ago and served overseas for sometime. He taught for a short period at a school in Maine and went on to study dramatics in Maine and at Solvevioria Academy in New York. He has been for the past seven years associated with Columbia Studios in Hollywood in an acting capacity. His contract having terminated sometime ago he went on to Phoenix Arizona where he was offered a position directing productions for television. He plans to continue his acting career on the New York stage.

The USS PHILIPPINE SEA is known to Navy men as "SHOWBOAT," because it was formerly used to take important government officials on cruises in the Far East.

CUPRO-NICKEL ALLOYS

The combination of mechanical properties and resistance to corrosion of the cupro-nickel alloys, containing 10 to 30 per cent nickel, has been a vital factor in establishing them in the power, marine and petroleum industries for heat exchanger applications.

Ingenuous crewmen of the USS CORAL SEA (CVA-43) developed what is believed to be one of the fastest methods ever devised for getting aid to a man overboard. Instead

of heaving the lifeboat overboard by hand, it is released from a basket mounted on the port and starboard quarters of the overhead on the flight deck. In an emergency, the men on watch simply pull a wire connected by remote control to a quick-release catch, and releases and inflates the lifeboat.

Did You Know That the Womens Army Corps offers young ladies graduating from high school this year the opportunity to continue their education by enlisting in the Corps for attendance at a school of their choice? Full information may be obtained at the Army Recruiting Station, VA Building, 89 Appleton Street, Lowell.

**NICKEL-CHROMIUM
ALLOYS**

Alloys of nickel and chromium have excellent properties. For example, the alloys resist at very high temperatures of 80 per cent nickel and 20 per cent chromium has a high resistance to scaling and will retain its useful strength even at temperatures up to 2,000 degrees Fahrenheit.

INCONEL

Inconel nickel-chromium alloys are employed in industry where high strength and resistance to corrosion or heat are required.

The USS CARRONADE is one of the Navy's new type ships which has the latest improvements in shipboard habitability. New features include, among other things, curtains around berths for privacy, fluorescent overhead lighting, and improved eating conditions.

The USS HANCOCK takes its place along with the Navy's other ultra-modern ships by installing the first closed circuit television to be used aboard any ship in the Far East. And now in addition to the morale-building entertainment value, interesting shipboard activities can be televised, and the Commanding Officers may issue orders to any man wherever his duty station may be.

Back in the 1920's it was considered great sport to go up in balloons. It still is. But in addition, balloons now play an important part in the training of Naval Airship Pilots. They are used to develop the pilot's ability to bring his airship to a safe landing, since in the event of engine failure the airship's performance is similar to that of a floating balloon.

SELECTMEN'S
NOTES

June 25, 1956

A meeting of the Board of Selectmen was held at the Town Hall this date at 8:00 p.m., with all members present. The meeting adjourned at 11:00 p.m.

The records of the previous meeting were read and approved. The Warrants were signed.

Upon motion duly made and seconded, it was voted that the following Licenses be granted:

To hold a Supper and Block Dance at Hathaway Acres, June 30, 1956, No fee. Hathaway Acres Association, North Wilmington, Mass.

Sunday License (renewal) expiration April 30, 1957, Fee \$5.00. John J. Davis, d/b/a "Grove Ave. Variety Store," 137 Grove Ave.

That the application submitted by a North Wilmington resident for a permit to pick up junk, be denied.

That a Public Hearing be held July 2, 1956 at 8:30 p.m. on the Petition for Joint or Identical Pole Locations submitted by the New England Telephone & Telegraph Company and Town of Reading Municipal Light Department requesting permission to locate poles, wires, cables, etc., along and across the following public way: Ayott St.,

approximately 85 feet north of Crest Road, 1 pole.

A letter was received from the Nee-Ellsworth Post No. 2458 stating they had been given to understand that the Town Park to be disposed of by the Town of Wilmington.

The letter will be acknowledged advising them that there are no plans to dispose of any part of the Town Park at this time.

A resident of Pineview Rd., North Wilmington met with the Board, requesting a street light be installed near their home.

They were advised that it would be necessary for them to file a petition with this Board, same to be voted on at the next Annual Town Meeting.

Mr. Harold McKelvey met with the Board to discuss Silver Lake Beach.

As the beach comes under the supervision of the Park Board and the Recreation Commission, it was agreed the Chairman of the Board of Selectmen should discuss the subject with the Chairman of the Recreation Commission.

The Town Manager read a copy of a letter to the Board of Water Commissioners from Whitman & Howard, Consulting Engineers advising that the alternate proposal for Route 28 would constitute a serious threat to the Wilmington Water System.

The Town Manager reported he has purchased portable

"blinker lights" to be used near the Little League Field, Middlesex Ave. and in other places where traffic should be slowed down.

The Town Manager also reported that the Highway Department is rapidly catching up on its work schedule which had been set back by adverse spring weather.

Currently under way are the major construction projects voted by the Town Meeting. Blasting and excavation are nearing completion on Dunton Rd. and Oakridge Rd. Gowing Rd. has been excavated for new gravel and Lawrence St. and Lawrence Court will be gravelled within two weeks along with the above mentioned streets.

The surfacing of Suncrest Ave. will be done after Oakridge Rd. has been excavated and gravelled.

The "routine maintenance" crew recently set up within the Highway Department is undertaking to clean out thoroughly all culverts and catch basins with the aid of the new sewer-rodding equipment. Many of these have been blocked for years. They have also installed a large number of street signs in various parts of town.

The "specified streets" for which the Town voted \$5000. for top dressing and oiling have been surfaced and will be sealed within the next few weeks.

The following is a summary of work underway or completed:

1. Major Construction Underway: Dunton Rd., Oakridge Rd., Gowing Rd., Lawrence St. and Lawrence Ct. (The two later streets to be started this week.)

2. "Specified Streets" (oiled, to be sealed): Bancroft St., Lang St., Brattle St., Cunningham St., Essex St., Davis Rd. and Birchwood Rd. The later to be deferred until installation of new water extension this summer.

3. Gravelled streets surface treated from Highway "expense account": (oiled - to be sealed): Warren Rd., Wight-

man Rd., Cypress St., Union St., Corey Ave., Fairfield Rd., Oakwood Rd., Faulkner Rd., Silver Lake Ave. and Grand St.

About 13,000 WAVES were in the Navy's Hospital Corps in World War II.

Fire Log

We missed the fire log last week as just as we were about to contact the dept. they were called out to fight a fire on Salem St. We have however collected the items we missed last week, for this week's issue.

On June 19, at 8:00 a.m. the dept. was called to fight fire at the dump on Salem St. At 3:30 p.m. on the 19, back to the dump. At 4:00 p.m. on June 19, the ambulance was called to transport Mr. Witherspoon of Swain Rd. to St. John's Hospital. On June 20, at 11:05 a.m. rubbish caught fire at

the rear of the Bay State Steel Co. On June 20, at 12:08 p.m. the ambulance took Mr. Dilloway of Salem St. to St. John's Hospital. On June 20, at 2:02 p.m. the ambulance was called to transport Mr. Leither of Salem St. to his home from St. John's Hospital. On June 22, at 11:18 the dept. was called back to extinguish a pile of rubbish which had caught fire at the rear of the Bay State Steel Co. On June 23, at 9:15 a.m. the ambulance transported Mrs. Carthorne home from Mass. General Hospital. On June 24, at 8:00 p.m. the ambulance took Mrs. Cathorne back to Mass. General. On

June 25, at 11:00 the ambulance took Mrs. Neilson of Glenn Rd., to Mass. General. On June 25, at 2:05 p.m. the dept. was summoned to Salem St. fire had broken out in the vicinity of Van's Gravel Pit and the Town Dump. Cause of the fire was not determined, but the remains of oil which had been dumped in the area last year, helped to keep it burning and to make fighting it even more hazardous than usual. To reach the area of the fire with water, firemen were forced to lay over over 4000 ft. of hose. Fire fighters from three surrounding towns were called in to assist. Burlington, Tewksbury, and Reading. This fire was not brought to an end until 9:45. On June 26, at 2:53 the ambulance was called to take Mr. Field of Grove Ave., to the Tewksbury State Hospital. On June 26, at 3:15 p.m. back to the dump again to investigate hot spots. On June 26, at 6:12 p.m. a brush fire occurred on Main St., near Shawsheen Ave. On June 26, at 11:45 p.m. 3 acres were burned over in back of Swezey's on Main

St. On June 27, at 12:20 p.m. the ambulance took Mr. Gardiner to Veteran's Hospital in Boston. On June 27, at 4:20 p.m. the ambulance took Mr. Fretten of Columbia St., to Tewksbury State Hospital. On June 27, at 10:00 p.m. rubbish in back of the Bay State Steel Co., caught fire again. On June 27, at 11:43 p.m. the ambulance took Mrs. Peterson to St. John's Hospital. On June 28, at 2:00 p.m. brush was found burning on Lake St. On June 28, at 5:25 p.m. a brush fire occurred at Cavanaugh's on Main St. On June 29, at 3:00 p.m. the ambulance took Mrs. Whitney of Burlington Ave., to St. John's Hospital. On June 29, at 4:45 p.m. the ambulance took Mr. Furey of Sheridan Rd., to St. John's Hospital. On June 29, at 5:10 back to the town dump. On June 29, at 6:20 the ambulance brought Mrs. Cawthorne home from Mass. General Hospital. On June 29, at 8:20 p.m. false alarm of brush on School St. On June 30, at 12:05 p.m. false alarm for brush on Brattle St. On June 30, at 9:30 back to the town dump.

SPECIAL QUARTERLY

CONFERENCE TO MEET

A special Quarterly Conference of all the officers of the Wilmington Methodist Church, which includes all commission members, stewards, ex-officio stewards and Trustees, will meet immediately

following the morning worship service on Sunday, July 8. The purpose of the meeting is to hear the recommendation that the church be incorporated in conjunction with the building program, and act upon recommendation. All officers of the church are urged to attend.

ENGINEERS

There is a growing need for nuclear engineers. The 1956 Yearbook of The American Peoples Encyclopedia reports that at least 2,000 trained engineers a year will be required for many years. Expansion of private industry's interest in nuclear reactors is creating the demand.

NI-RESIST OUTPUT GREATER

Production of Ni-Resist nickel corrosion-resisting iron castings increased during 1955. These alloys are used in components of industrial equipment where resistance to corrosion, heat and wear is required.

JET INSULATION

Because the strength of many alloys used in modern aircraft construction decreases rapidly with increasing temperature, it has been found necessary to protect jet aircraft structural parts from heat radiated by engines and afterburner assemblies. For this purpose lightweight silica fiber blankets are often used—the blanket wrapped around the high-temperature parts of the jet engine. A half-inch layer of this fiber, enclosed in a foil envelope of chromium-nickel stainless steel or Inconel nickel-chromium alloy, reduces the temperature across the blanket by many hundreds of degrees.

NICKEL-CHROMIUM ALLOY CASTINGS

The heat-resisting types of nickel-chromium alloy castings find their principal application in industrial heat-treating furnaces; the petroleum and chemical industries are also important users. The corrosion-resisting types of these castings are used in the chemical, food processing and petroleum industries.

LARGEST NICKEL PRODUCER

About 65 per cent of the free world's supply of nickel in 1955 was delivered by International Nickel whose mining operations are centered in the Sudbury District of Ontario.

PALLADIUM LEAF

The beating of precious metals into the form of leaf is an art dating back into antiquity but only recently has it been possible to secure palladium, one of the platinum group metals, in this form—a leaf less than one-two hundred-thousandth of an inch thick. This material is employed for decorating fine books, leather, picture frames, and for interior decoration where a white, non-tarnishing finish is desired.

PALLADIUM

One of the precious platinum group metals, palladium, is becoming increasingly popular as a metal for fine jewelry. Its light weight makes it particularly suitable for large pieces such as brooches, clips and earrings.

MONEL SOCKETS RESIST CORROSION

Sockets and terminals of fluorescent lamps which must operate in chemical plants where ordinary lighting units suffer from corrosion are nickel-copper alloy because of its excellent resistance to corrosion.

DUCTILE CAST IRON

In 1948, International Nickel announced a revolutionary new foundry product commonly known as Ductile Cast Iron. Although made in the iron foundry, this new product is unlike ordinary cast iron in that it is not brittle and can be bent or twisted. Today, Ductile Cast Iron is widely accepted for numerous engineering applications and is expected within the next few years to become the third ranking industrial engineering ferrous metal on a tonnage basis.

J-20-J-11

The Treasury Department has a letter from a Savings Bond buyer relating that he bought a bond as a surprise for his wife, put it under her plate at the dinner table, later recovered it from the dishpan. The Treasury sent him a new bond.

NEW NICKEL ALLOY

Ni-o-nel is the trademark applied to a new high nickel-iron-chromium alloy which was introduced by International Nickel during 1955. This alloy is capable of resisting attack by certain corrosive conditions of unusual severity.

ELECTRODE

A new multi-purpose welding rod, trademarked Inco-Rod A, was introduced in 1955 by International Nickel. This electrode was designed to fill a long-existing need for a rod capable of making strong, ductile joints between metals of substantially different compositions.

Under the sponsorship of the Office of Naval Research, the "Super Skyhook," a giant plastic balloon nearly as tall as an 18-story building, was developed. When launched, it soared more than 22 miles into the sky, establishing a record of going higher than any other balloon of its type.

BILL AND MEL'S TEXACO SERVICE
 Main St. OLiver 8-2311 Wilmington

HEALTH FOR ALL

If you were asked: "What is a nurse's job?", you'd probably reply without hesitation: "Caring for the sick." But did it ever occur to you that in some cases teaching the sick is also an important part of nursing?

This is particularly true of tuberculosis, a disease that usually requires a drastic change in the patient's living habits. Today, because of the effectiveness of modern methods of treatment, more and more victims of TB are living longer. While the threat of death from the disease has declined, the possibility of relapse—of another bout with the disease—is faced by almost all TB patients. Relapse can, however, be avoided if they learn to adjust their lives to their special problems.

Here the nurse comes in as a teacher. She helps her patients understand their stubborn and long-term disease. She teaches them the precautions they must take to keep it under control. When patients leave the hospital, their future health and well-being depend upon how well they follow medical advice. If the nurse has done a good job of teaching, they will have a much better chance for a healthy and productive future.

The importance of the nurse's teaching extends beyond the individual patient. It affects the patient's family and all those with whom he comes into contact. If the TB patient does not care for himself properly and suffers relapse as a result, he endangers the health of those around him.

The nurse in her teaching job helps protect the health of the family and the entire community as well as that of the individual TB patient.

FRUSTRATING BARNACLES

A new idea to discourage barnacles from settling on ships' hulls has recently been tried out successfully. Ultrasonic vibrations, induced through a transducer into the ship's plates, have been found to make the hull an uncomfortable place for barnacles to settle. Nickel plates used in the transducer are primarily responsible for creating the ultrasonic vibrations due to the fact that nickel changes in dimensions when magnetized and reverts to original size when demagnetized. When this is done at high frequency, vibrations are produced from the nickel plates. These vibrations do not affect passengers, crew or sensitive instruments aboard the ship, nor are they injurious to the barnacles.

Equipped with a canted deck, the USS ANTIETAM was affectionately dubbed the "Cantietam," after a rumor swept the ship that a well-known reformer was investigating them. He had, so the rumor went, heard reports that "a bunch of sailors were running around the Caribbean with a crooked deck."

PURE NICKEL COINAGE'S 75th ANNIVERSARY
 This year marks the 75th anniversary of the first pure nickel coin. It was a 20-cent piece issued by Switzerland in 1881.

COMMONWEALTH OF MASSACHUSETTS.

Middlesex, ss. PROBATE COURT.

To all persons interested in the estate of Shelton Barry late of Wilmington in said County, deceased.

A petition has been presented to said Court, praying that the value of the property of said deceased remaining after the payment of debts, widow's allowance, and charges of administration may be determined by said Court.

If you desire to object thereto you or your attorney should file a written appearance in said Court at Cambridge before ten o'clock in the forenoon on the nineteenth day of July 1956, the return day of this citation.

Witness, John C. Leggat, Esquire, First Judge of said Court, this twenty-first day of June in the year one thousand nine hundred and fifty-six.

John J. Foley, Register. J-27-J-4-11

Why people store valuable papers in a stove or an oven is a mystery to the Treasury Department. Every so often it replaces a Savings Bond that has been roasted in that way. No matter what happens, your bonds are an indestructible investment.

One of the outstanding members of the United States Navy Band is Richard Bair. Known as the nation's youngest concert harmonicist, he has been featured with many of the country's leading symphonic organizations, including the Boston Symphony, the Buffalo Philharmonic, and has made guest appearances with Fred Waring's Pennsylvanians.

SHOCK-PROOF FARM MACHINERY PARTS

Many parts of farm machinery are now being made of Ductile Cast Iron because of this material's high strength, wear-resistance and ability to withstand sudden shock. These parts include gears, hitches, drive sprockets and steering knuckle arms.

LARGE MINE HOIST

The new mine hoist recently installed at International Nickel's Murray Mine in the Sudbury District of Ontario is one of the largest in the world. Driven by two 3,000-horsepower motors, it hoists 15-ton loads of nickel-copper ore at the rate of 3,000 feet per minute.

ENGINEERING ALLOY STEELS

The major portion of consumption of nickel-containing engineering alloy steels in 1955 was in established applications such as automobiles, trucks, tractors, aircraft, military equipment, farm machinery, road building equipment, power generation machinery and railroad equipment.

PLATINUM

Although platinum was used for personal adornments fashioned by South American Indians long before Columbus discovered America, it is only in comparatively recent times that it has been widely employed for jewelry purposes.

TRADE CHICAGO BACKGROUND

Archaeologists have come
up with new findings about
the Chicago area, according
to the 1956 Yearbook of The
American Peoples Encyclo-
pedia. A survey conducted by
the Chicago Natural History
Museum revealed that three
different cultures have exist-
ed in this section in the past
3,000 to 4,000 years. To begin
with, nomadic hunting peo-
ple established camps along
the rivers and lake beaches
in the Chicago area about
3,000 to 4,000 years ago. Fol-
lowing them were the Wood-
land Indians who built small
villages and made crude pot-
tery and rough tools of stone
and bone. By the year 900
A.D. hunting and farming
people populated the area and
supported large villages. They
remained until the white
man made his appearance.

CDR Charles Brendler, USN,
leaders of the United States
Navy Band, began his naval
career at the age of 15 when
he went aboard the USS
FLORIDA with his clarinet
under his arm. His outstand-
ing musical ability projected
him from an enlisted status
to the rank of full Commam-
der, and today he leads one
of the finest groups of musi-
cians to be found anywhere
in the world.

NIMONIC AND INCONEL ALLOYS

The Nimonic and Inconel
nickel-chromium alloys, be-
cause of their strength, resis-
tance to heat and corrosion,
and their ductility, are used
in various parts of modern
jet engines, aircraft turbo-
prop engines and industrial
gas turbines.

Call These Numbers Of Local Residents To Get News Into The Crusader

A staff of news writers
are always on hand to
answer your phone calls.
In order to get an item in-
to the paper you can call
our Lowell office without
any charge and give the
item to us.

If you want to talk to a
Wilmington correspondent
you can call Mrs. Betty
Downs at 8-2907.

Clubs, organizations and
anyone wishing to insert
a long article and not want-
ing to call it in by phone,
can send it to our Lowell
office, The Wilmington
Crusader, c/o The Billerica
Publishing Co., 95 Bridge
Street, Lowell, Mass., or
just drop it into the post
office c/o The Crusader,
Wilmington, Mass.

Another writer added to
the staff is Mrs. Esther
Moore, Morse Ave., who
will cover the North Wil-
mington area. Her phone
is OLiver 8-3820.

With all these aids, we
plan to give to the people
of Wilmington a full
coverage of news.
Just call any of the
above or our Lowell office
and willing help will be
waiting to serve you.

MAKES POTTERY WHITE

One use for the element co-
balt is as a decolorizer in the
making of pottery. Nearly all
the clays used for this pur-
pose contain iron in some
form, which, on firing, gives
rise to a yellow tinge. The
addition to cobalt to the clay
produces a complementary
blue coloration which neu-
tralizes the yellow and results
in a pure white.

MONEL PROPELLER SHAFTS

A large number of plea-
sure boats being built today
are equipped with Monel ni-
ckel-copper alloy propeller
shafts because they are
strong and tough resist ma-
rine corrosion and will not
rust.

STEEL STRENGTHENER

Small additions of nickel,
generally below five per cent,
greatly improve the strength,
toughness and wear resist-
ance of steel.

BIGGEST NICKEL ALLOY PLANT

International Nickel's Hun-
tington Works in West Vir-
ginia is the largest plant in
the world devoted exclusively
to the production and fabri-
cation of high nickel alloys.

CANADA GREATEST NICKEL PRODUCER

It is estimated that in 1955
Canada produced about 81
per cent of the free world's
nickel. Of the remaining free
world production, Cuba ac-
counted for approximately 7
per cent; New Caledonia, 5
per cent; Japan, 3 per cent;
United States, 2 per cent, and
various other countries, 2
per cent.

NICKEL IN TURBO-PROP ENGINE

Six per cent of the total
weight of the Rolls-Royce
"Dart" turbo-prop airplane
engines, which power the
Vickers Viscount passenger
transports, is accounted for
by the nickel used in alloyed
materials.

U. S. Savings Bond owners
chose some odd spots to store
them. The Treasury recently
replaced a bond that had
been grilled in a waffle iron.
No matter whose fault it is,
lost, stolen, damaged, or de-
stroyed Savings Bonds are
replaced.

The first three technical
training schools for enlisted
women in the Navy were:
Radioman, Madison, Wis.;
Yeoman, Stillwater, Okla., and
Storekeeper, Bloomington,
Ind.

"Where's the fire?"
"I'm off to register for the
November 6 election. How
about you?"

CANADIAN NICKEL OUTPUT

Total nickel output by
principal producers in Can-
ada in 1955 reached about
347,000,000 pounds, a new
high. This was about 24,000-
000 pounds greater than
Canadian production in 1954.

SHOE & FOOT NOTES

by J. Arthur Poltras

May I again continue and finish last week's talk about Dr. William M. Scholl pertaining to the fitting of shoes. If a shoe fell off a man's foot, it was too large. Otherwise nobody bothered about size until Dr. Scholl worked out a system of shoe measurement, and these were gradually accepted by the manufacturers. Today the United States not only has more shoes than any country on earth, but the American foot, grotesque as it often becomes with abuse, is the best fitted in the world. Just recently one of the workmen on my farm in Indiana was hobbling around, and I could tell his feet were giving him great pain," Dr. Scholl said.

"I asked the man to take off his shoes and I saw they were more than three sizes too small. I told him this and he protested." "No, no," the workman cried. "My wife's been buying my shoes ever since we married. She always buy this size!" In the interest of both the man's feet, and work on the farm, Dr. Scholl fitted him correctly in a new pair of shoes. The new shoes were size 12-B. For years the man had been hopping around in size 9 1/2 EE.

But this is not so painfully comical as the problem of a doctor in West Virginia who consulted Dr. Scholl, complaining that his feet hurt something terrible. Self-diagnosis had failed to discover any reason. "He was wearing 10 EE's," Dr. Scholl said. "I fitted him with a new pair, size 14-A." There two ill fits had hung on from the era, 30 to 40 years ago, when many shoe companies had but two lasts, narrow and wide, and some had but one, medium. Width was not considered important, and the "fit" was accomplished by clamping the foot between toe and heel like a vise.

Children today are more active than they were half or even a quarter century ago, and some experts attribute all this to vitamins. Dr. Scholl doesn't overlook the miracle in sizing which has been brought about in children's shoes. Feet growing in America today have the finest youth shoes ever made, and part of their energy comes from properly designed and fitted shoes. Having looked at feet for more than half a century, Dr. Scholl has seen some real doozies.

When he first became a doctor a person would encounter about as much pain in a shoe store as in a dentist's office, and it was nothing unusual for a customer to try on a few pairs of shoes, then have to give up due to pain, and come back another day to find a pair that hurt somewhat less. That will be all on this subject, folks. Happy Feet To You!

GRAIN GROWER CHAMPS

The world champions in raising wheat, oats and rye are the grain growers of Alberta, Canada, reports the 1956 Yearbook of The American Peoples Encyclopedia. Their supremacy was established last year at the Royal Winter Fair in Toronto.

UNITED STATES LARGEST NICKEL CONSUMER

The United States in 1955, is estimated to have consumed about two-thirds of the total free world supply of nickel. In the same year, it produced only about two per cent of the total supply.

NICKEL-PLATED SHEET AND PLATE

A new development in the plating field in 1955 was the production of nickel-plated heavy steel plate and sheet for fabrication into materials processing and handling equipment.

The heaviest and most powerful attack bomber the world has ever seen, the Navy's 70,000-pound A3D SKYWARRIOR is scheduled to be delivered to two new Heavy Attack Squadrons this year. It is capable of carrying an A-bomb, and has sufficient range to span the United States and return.

A pint-sized weather station has been developed for the Navy. Weighing about 6 pounds and 23 inches high, it can be held in one hand to record essential weather data automatically in total darkness and under severe weather conditions.

50,000 RARE BOOKS SOUGHT FOR SHADOWBROOK LIBRARY

A worldwide search has been launched for 50,000 books valued at \$400,000, to replace the library destroyed by fire at Shadowbrook, the Jesuit Novitiate at Lenox, it was announced yesterday.

The Very Rev. William E. Fitzgerald, S.J., New England Provincial, disclosed that over 30 percent of the classical volumes are out of print while the plates for many of them were destroyed in the bombings of London during World War II.

Father Fitzgerald has appointed the Rev. Patrick A. Sullivan, S.J., former Dean of Studies at Shadowbrook who was transferred to a New York novitiate after the fire, to assemble the new library and tour the literary centers of Europe in the search. He will leave the U.S. in October for Oxford University and

MAGNETIC NICKEL

Nickel is the third most magnetic element after iron and cobalt.

RECHARGEABLE FLASHLIGHT CELL

A new rechargeable cell for use in flashlights and other portable electric lanterns has recently been put on the market. Hermetically sealed, the nickel-cadmium battery cell can be recharged more than 200 times and will not deteriorate if either overcharged or undercharged.

The Navy is conducting experiments on "flying submarines." The experimental model is just 7 feet in diameter and the controls are said to be handled under water almost exactly like those of an airplane in flight.

BRIDES! If you married since the last election, you have to register again to vote in the November 6 election. Be sure your name is in the book!

V.F.W. Dugout Doings

The bonfire this year is a BUST. Lack of spirit and co-operation has made a great thing fall and it is with many regrets that I have to say that the town will be without the Bonfire this year. It was this writers intentions the three local Vet. organizations to work the project this year, but with only a handful of men from the American Le-

gion and the V.F.W. - it was too huge a job. In fact - were the spirit of the non-working members up to standard - it may have been possible, but even that was lacking. So-o-o readers, while the club itself is only a reflection of the members within - don't feel too badly of us - we tried, or at least some of us did. My sincere thanks to the boys of the American Legion, who worked with us to make it possible.

Thank you - Jimmy Fair-

weather, Charlie Higgins, and Joe and Hank Bradley. And to Freddie Lloyd, Stan Witham, John Demers, Tom O'Connor, Al Fenton and Charlie McCann of the V.F. W. Special thanks to Snuffy Smith who volunteered his services. Maybe Folks next year - - who knows.

At our last post meeting we initiated Vincent Parziala and Gus Couco into our post. All us members are glad to have you come down often we need your help.

The Rotary club will have their parade on the fourth of July. The American Legion and D.A.V. have been invited to march in it. Being V.F.W. we are called over the phone the last minute, to participate in the parade. At this writing chair officers cannot be contacted, so it looks as though our proud colors will not be displayed.

The D.A.V. had their installation Saturday night. Being V.F. W. we get our invitation Saturday morning June 30. If

folks in town wonder why V.F.W. members are all lean looking only because we've no opportunity to sit down and put on weight as we are always being called on to rush at the last possible minute.

It was a well attended meeting last Thursday night and proved to be quite lively. Post members should attend these meetings and help pick up the burdens of the post. Remember - this post is yours - to enjoy and benefit by, but by the same token you men are obligated to lend a hand in the affairs of it - supervision and recreational activities.

Plans are nearing completion for a lobster cookout. All you readers desiring to come please contact any chair officer and make your reservations. At present, it's hard to say what it will cost, but our low price high quality routine will be in effect. Now - all we have to do is get the lobsters. Any suggestions - folks - let us know - we'll be glad to hear them.

Johnny Vadaikes had all the kids rolling last Sunday at If we can send a delegate over to Allick Epstein's house and drag him down to our next social. Whaddyasay - Allick 1 Come on down and relax.

Why it's always the smallest girls that eat the most. Whatever would we do without Josie at our picnics.

When Flip Bradley is going to hit that home run he promised.

How remarkably well, George Spanos is looking lately.

How Larry Foley enjoyed his week end at Wells Beach with Isabelle and Mary Ann.

How streamlined Billy LaSalles looked while visiting on Wyman's Beach. He sure has a heck of a lot of patience with them in the water and he kept them amused for quite a while.

Bill LaSalles dropped in for a visit Saturday night and it was good to see him. He's got quite a stint in the military - as a sailor, soldier and now in the Air Force. Good to see you Billy and drop us a line to let us know how you're making out.

Just wondering - how Stan

enjoyed the roller coaster ride. If he enjoyed the clams he went after, down at the shore. his eave from the Air Force.

If anyone wants to buy some railroad ties.

How Jean Moore feels.

Where Frank Sottile learned to swim.

What Freddy Lloyd has planned for our next social.

ST. DOROTHY'S WHIST

Mrs. George Boylen* and her committee Sally Fleming, May McAndrew, Ruth Sullivan, Ann Currier, Theresa Magro, Ethel Ross and Marjorie Dinsmore, wish to thank all, who in any way, helped to make Friday nights whist such a success.

Mrs. Chapman won the door prize and Marjorie Dinsmore won the special, a folding aluminum chair. The following were among the whist winners; Mrs. Olive Faria, Marie Baldwin, Doris Dame, Mary Sottile, Bertha Allen, Katherine Barry, Theresa Criscinzi, Mary Fuller, Angelo Arena, Mrs. Gladys Benoit, William Sirois, Mrs. Cedquist, Marie Arena, Mrs. Iris Schena, Margaret Lee, Theresa Foss, Dick Lee, Edgar Smith, Mrs. Wm. Toomy, Kay Doherty, Mary Kay Kershaw, S. Batcheller, William Doherty and James Rothwell.

BRAND NEW CITIZEN ON WEST STREET

**FAMOUS STAR TO APPEAR
AT LAKE WHALOM
PLAYHOUSE**

Henry Morgan, celebrated star of Television and Radio will appear in person at Guy Palmerton's Lake Whalom Playhouse, at Fitchburg starting next Monday, July 9th.

This sensational comedian will appear in the leading role in the comedy, "The Seven Year Itch". In this part, it is certain that this star will convulse audiences with his com-

edy talents. His reputation as an expert in the "art of entertaining" is internationally known.

The combination of Henry Morgan and the long run Broadway stage comedy, "Seven Year Itch" is certain to prove one of the outstanding attractions of the Summer Theatre season at Whalom. Only a few leading summer playhouses will be honored with the personal appearance of this popular funnyman, and

it is with a great deal of pride, that Mr. Palmerton presents Mr. Morgan to local playgoers.

"The Seven Year Itch" has entertained millions of people all over the world. Its greatness resulted in five companies playing simultaneously all over the world for a continuous three year period. Its motion picture success can only be superceded by presentation of the original un-cut and uncensored stage version.

The entire resident company of Guy Palmerton Players appear in support of Henry Morgan. Reservations of all performances should be made in advance to assure playgoers of choice locations.

The current production of "The Tender Trap" also in its original Broadway stage version, is attracting wide attention from playgoers.

Skillfully portrayed by a professional cast of players, the comedy is a worthy addition to the summer's play schedule. Of course, popular prices prevail and ample parking space is available.

WHIST PARTY FRIDAY

There will be a whist party in St. Dorothy's Hall in aid of the building fund on Friday evening, July 6th at 8:15. Mrs. Alice Carroll is Chairman of the party with the aid of her committee. Refreshments will be served.

**D.A.V. INSTALLS NEW
OFFICERS**

Last Saturday evening the Wilmington Chapter of the Disabled American Veterans held installation ceremonies for the new slate of officers at headquarters on Grove Ave. The attendance was most gratifying, an estimated 100-150 persons jamming the hall.

The Auxiliary officers were installed first, Mary Starr taking head post as Commander. The rest of the slate consists of Sr. Vice-Commander, Mary Blair; Jr. Vice-Commander, Jacqueline Johnson; Chaplain, Mary Sottile; Adjutant, Elizabeth Tattersall; and Treasurer, Helen Miller.

Adele Tallon, State Dept. Commander of the Auxiliary, was the installing officer.

Walter Morgan, Past Dept. Commander of the Dept. of Mass., was the installing officer for the male officers. The new Commander is James Shine; Sr. Vice-commander, J. Simpson; Jr. V. commander, William Wendell; Chaplain, James Duggan; Adjutant, John Davis; Treasurer, Joseph Sullivan; Trustee, Walter Cibulski; and Publicity Officer, Paul Metcalf.

Many out of town dignitaries were present to wish the new officers success.

In line with the modern Navy's streamlining program, the Office of Naval Research is experimenting with a "Flying Platform." Capable of being operated by one man, it operates by means of 2 propellers rotating in opposite directions which suck air through holes in the platform, thus supplying a downward thrust which supplies the vertical lift.

A more elusive target, equipped with an automatic pilot, is being designed to assist in training Navy gunners and guided missile men. Weighing 600 pounds, the new remote-controlled target drones will have a 12-foot wing spread, and can be launched by catapult from ship or shore.

ST. THOMAS' NEWS

Thursday, Confessions in preparation for First Friday at 7:30 p.m. Also there will be a meeting of the Chicken Barbecue Committee at Villanova Hall at 8:00 p.m. All officers of the Catholic Daughters and others who are on the committee are urgently requested to be present. Anyone else interested in working with the group is very welcome as a barbecue requires so very many workers.

First Friday, Masses are at 6:00, 7:00 and 7:30 a.m. Sacred Heart Devotions at 7:45 p.m.

Thanks to Mrs. Peggy Eaton, Mrs. Helen Durkee and all who helped them, for the proceeds of the Blitz Party last Thursday evening.

Next Sunday is Communion Day for the men of the parish.

Coming: On the four Tuesdays of July, commencing the 10th, a series of lectures by Father Regan for enquiring non-Catholics at Villanova Hall, at 8:30 p.m., and a Strawberry Festival in aid of the Building Fund, July 11, at 7:45 on the rectory grounds.

An effective de-icing fluid has been developed to prevent the accumulation of ice and snow on parked aircraft. Applied with a brush or sprayed on, it will protect exposed surfaces for as long as 12 to 24 hours.

Men of the USS FULTON have accepted the new Fulton Blue Jacket enthusiastically as a regular part of their uniform. Much less cumbersome than the foul weather jackets, they are neat, comfortable and present a sharp appearance. They also save wear and tear on the peacoats which sailors like to save for wear on liberty.

During a summer drought at St. Thomas in the Virgin Islands, two Navy water tenders and a barge provided the people of the island with a million and a half gallons of fresh water a week, as part of the Navy's extensive Mercy Missions program.

**ALONG THE
MAIN STEM**

by

Bernie Patterson

**Operation Robber:**

The five year old son of a prominent veterinary Doctor of Wilmington needed a hernia operation and naturally enough didn't want to go to the hospital. After a few bribes and assurance that it wouldn't hurt, he was taken there and in due course operated on with no harmful affects. The day after the operation the youngster's mother went to visit what she thought would be a bed-ridden invalid. To her surprise she saw her boy up and around, showing no signs of an operation. Asking him how he liked everything, this is the answer she received. "Ma, I don't like it here, yesterday they fed everyone in here but me, then a girl stuck a pin in my arm and they put me on a bed and pushed me into a big shiny room, and you know Ma, there was six robbers in that room, honest Ma, they all had masks on their faces and boy do I wish I had my six-shooter with me, I would'a shot all of 'em."

Off We Go:

Jimmi Marsi, late of Wilmington, now a rookie soldier at Fort Dix, N. J., telephoned George as to his whereabouts early last Thursday morning. Jim set out from Wilmington to join the Air Force, apparently changed his mind . . . who knows? He might wind up in the U.S. Coast Guard.

Silver Lake:

From what I have seen at Silver Lake this talk about improvements doesn't make too much sense to me . . . sure it can stand improvements . . . what can't? But in my various travels I have

seen few town or city swimming beaches that . . . all around . . . beach, rafts, etc., are any nicer. The staff starting with its director, Larry Cushing, a very capable gentleman in my estimation, Margaret Calnan, a very neat and efficient woman polices the area and also cares for the bathhouse. The life guards need no introduction to residents of Wilmington, having been outstanding athletes and holding various life saving honors. Headed by life guard, Dan Boylen, a brown and muscular young man and assisted by two weekend guards, Tex Johnson and Bob Swanson these three very proficient swimmers are augmented by the very lovely, Esther William's of Wilmington, Patricia Bennett, a former athlete of Wilmington High School and student at Sargeant College. All in all I would say that the people of Wilmington are very fortunate to have the beach and personnel that is there.

D.P. and Local Boy:

Eddie Kobylis, local boy, spent a few days in town recently. His ship, the Gen. Langfitt was in dry dock for repairs giving Eddie a very welcome rest and the opportunity to see and talk with many of his old friends. His is a job that perhaps not many people know about. He is Bosuns Mate aboard a ship that brings back . . . from Europe, Displaced Persons and each trip the boat carries 1200 of these D.P.'s. The ship picks up the passengers at Bremmer Harbor, Germany, sailing into New

York harbor nine days later to discharge them and after a short stop over of one to three days the ship returns for more passengers. Eddie has been in this service for nine years but in September he will be united with his wife, a German girl, who will travel to the United States on the U.S.S. America. Eddie plans to get a job around here and settle in Wilmington.

ST. DOROTHY'S NEWS

Sunday is Communion Day for the Holy Name Society and the men of the parish. Daily Mass at 7:30 except First Friday this week at 7:00 and Saturday at 8:00

Confession - Thursday evening at 7:30 at St. Mary's. We are grateful to Mr. George Boylen and his committee for the proceeds of Fridays Whist Party.

Mrs. Alice Carroll and her committee will conduct another whist Friday evening at St. Dorothy's Hall.

We are grateful to Mrs. Mulholland and all who helped with the very successful food and cake sale.

SILVER LAKE BEACH NEWS

Attendance at the Silver Lake Beach hit a new high according to estimates of Sunday bathers. Over 500 cars were handled by the special police on duty during the day activities. This number plus the walkers to the area brought an estimated 1200 to 1500 persons to enjoy this recreation area. Dan Boylen head lifeguard was assisted by Patricia Bennett and Bob Swanson in handling this large crowd of swimmers. To expedite matters at the entrance of the parking lot all persons in cars are asked to present their identification badges without being asked. Persons without these badges who are eligible for them should see Mrs. Gilligan, Town Clerk at the Town Hall during the week. There is no cost for the first tag issued but there will be a charge for any lost tags.

NEW STAFF MEMBER

Larry Cushing, director of athletics at the High School announces the addition of Miss Alice McCarthy to the physical education staff of the High School. Miss McCarthy will fill the vacancy of Miss Conley, last years instructor for girls and will assume her duties in September. A graduate of Lowell Teachers College she has served as an elementary teacher in the Wilmington system. Miss McCarthy has been coach of all girls sports for the past year. Formerly coach of all sports at Notre Dame Academy for girls and a rated girls official she has also been instructor of tennis in a private summer camp. An outstanding athlete

in basketball, softball, field hockey and tennis she now is majoring in Physical Education through Boston University for her master's degree.

L. A. A. HOLDS COOKOUT

Twenty-two members of the Lawrence Acres Association were present on Saturday, June 30, at the home of Tony Napolitano to enjoy a cookout.

From all reports, this was an extremely enjoyable evening.

Street Lights Broken On Lowell St.

On June 27, Deputy Hoban and Officer Markey investigated a complaint from citizens in the area of Lowell St., that boys were shooting out street lights with B B guns. The officers spoke to the boys and their parents and the guns were destroyed.
